FACTS & FIGURES

VAKBLAD VOEDINGSINDUSTRIE

The trade magazine for entrepreneurs and managers of food manufacturing industry

For nearly 30 years we have been providing information about trends & developments, sustainable entrepreneurship, innovations, packaging, hygiene and food safety, processing, process technology and science. Vakblad Voedingsindustrie is part of a cross-media concept, a mix of requested communication (Internet and a digital newsletter) and unsolicited communication (we make sure the magazine is published in the entire sector). In addition, with our network Ondernemers Sociëteit Voedingsindustrie (OSV), we facilitate personal contact moments with the target group, which makes full circle.

We are advised by the market: our readers and OSV members. The editors maintain contacts with domestic and foreign research institutes / knowledge centres / universities and translate the results of relevant research into practice. A pleasant mix of science, trends and developments, domestic and foreign (product) news and 'nice to know'. The print edition and the newsletter are in Dutch, online we publish in Dutch and English.

TARGET GROUP

Vakblad Voedingsindustrie is targeted at managers within processing companies involved in the meat, poultry and fish industries, the (convenience) food industry (including snacks, salads, fish products, preserves, meal components, meat substitutes and protein sources) and wholesalers around the world.

EXTRA ATTENTION

Each edition we give special attention to a topic that is of high interest in the food industry. We elaborate on that topic with an independent story in which we discuss the latest trends and developments. By means of case studies, we translate the theme, along with the market, into practice.

NETWORK OSV

PERSONAL CONTACT WITH OUR OWN NETWORK ORGANISATION OSV

We are the only Dutch publisher in food with our own network organization:
Ondernemers Sociëteit Voedingsindustrie (OSV).

The OSV was founded in 1993 and we're proud of its 28 years existence. Our network has approximately 300 members: primarily comprising decisionmakers in the food industry. The members come together at workshops, lectures, company visits, and the Winter and Summer barbecues. For vakblad Voedingsindustrie the way to gather information at the source.

Especially in this digital age it is important to continue to keep meeting each other in person, this creates trust and ensures a higher level of respect.

WHAT DOES AN OSV-MEMBERSHIP COST?

The OSV membership costs only € 395 per calendar year + registration fee of € 25. As soon as a personal contribution is due for a meeting (golf day / barbecue), this will be clearly communicated in advance. Company visits and workshops are free for members.

The members of the OSV receive vakblad Voedingsindustrie and they get a 5% discount on all standard advertising possibilities in vakblad Voedingsindustrie. They also receive a free upgrade in the suppliers guide. This way membership is recouped in no time. Check our member list online.

It does not matter what you know but who you know!!
