

# **Beyond Meat® Reports Second Quarter 2023 Financial Results**

## August 7, 2023

EL SEGUNDO, Calif., Aug. 07, 2023 (GLOBE NEWSWIRE) -- Beyond Meat, Inc. (NASDAQ: BYND) ("Beyond Meat" or "the Company"), a leader in plant-based meat, today reported financial results for its second quarter ended July 1, 2023.

### Second Quarter 2023 Financial Highlights<sup>1</sup>

- Net revenues were \$102.1 million, a decrease of 30.5% year-over-year.
- Gross profit was \$2.3 million, or gross margin of 2.2% of net revenues, compared to a loss of \$6.2 million, or gross margin of -4.2% of net revenues, in the year-ago period.
  - Gross profit and gross margin were positively impacted by lower materials costs, lower inventory reserves and lower logistics costs per pound, partially offset by higher manufacturing costs excluding depreciation, which included the impact from flow-through of higher cost inventory produced in the fourth quarter of 2022, and lower net revenue per pound.
  - Gross profit and gross margin included the impact from a change in the Company's accounting estimate associated with the estimated useful lives of its large manufacturing equipment made in the first quarter of 2023, which reduced COGS depreciation expense by approximately \$5.1 million, or 5.0 percentage points of gross margin, relative to depreciation expense utilizing the Company's previous estimated useful lives.
- Net loss was \$53.5 million, or \$0.83 per common share, compared to net loss of \$97.1 million, or \$1.53 per common share, in the year-ago period.
- Adjusted EBITDA was a loss of \$40.8 million, or -40.0% of net revenues, compared to an Adjusted EBITDA loss of \$68.8 million, or -46.8% of net revenues, in the year-ago period.

Beyond Meat President and CEO Ethan Brown commented, "The second quarter brought mixed results amidst otherwise strong progress toward our goal of sustainable long-term growth. Ongoing category headwinds compressed net revenues, which in turn impacted product sales mix and gross margin, overshadowing significant strides in operational efficiency, including meaningful year-over-year reductions in operating expenses, COGS per pound, and overall cash consumption. While we are reducing our full-year 2023 net revenues outlook, we nevertheless expect a modest return to year-over-year top-line growth in the third and fourth quarters of 2023, and, relative to the first half of 2023, a meaningful reduction in cash consumption and an increase in gross margin. As we look to the future, we remain steadfast in our belief that plant-based meat, and Beyond Meat specifically, will play an important part of the global response to a climate crisis that appears to be rapidly intensifying, while also delivering health benefits to the individual consumer."

### Second Quarter 2023

Net revenues decreased 30.5% to \$102.1 million in the second quarter of 2023, compared to \$147.0 million in the year-ago period. The decrease in net revenues was driven by a 23.9% decrease in volume of products sold and an 8.6% decrease in net revenue per pound. The decrease in volume primarily reflected weak category demand, especially in the Company's U.S. retail and U.S. foodservice channels, and the cycling of a particularly strong second quarter in 2022. The decrease in net revenue per pound was primarily driven by changes in product sales mix and increased trade discounts, partially offset by pricing changes.

U.S. retail channel net revenues decreased 38.5% compared to the year-ago period, due to a 34.3% decrease in volume of products sold, primarily reflecting weak category demand and the cycling of significant sell-in of Beyond Meat Jerky in the year-ago period, and a 6.3% decrease in net revenue per pound, resulting from higher trade discounts and changes in product sales mix, partially offset by increased pricing for certain items resulting from reduced sales to liquidation channels in the quarter. U.S. foodservice channel net revenues decreased 45.4% compared to the year-ago period, due to a 44.2% decrease in volume of products sold, primarily reflecting weak overall demand and comparison against a particularly strong second quarter in that channel in 2022, and a 2.2% decrease in net revenue per pound, primarily due to increased trade discounts, partially offset by changes in product sales mix. International retail channel net revenues decreased 15.6% compared to the year-ago period, due to a 17.9% decrease in volume of products sold, primarily reflecting weak category demand, partially offset by a 2.8% increase in net revenue per pound. The increase in net revenue per pound was primarily due to changes in product sales mix and favorable changes in foreign exchange rates, partially offset by higher trade discounts and pricing changes. International foodservice channel net revenues decreased 0.9% compared to the year-ago period, primarily due to a 16.7% decrease in net revenue per pound, partially offset by a 19.0% increase in volume of product sales mix and higher trade discounts, partially offset by favorable changes in foreign exchange rates, partially discounts, partially offset by favorable changes in foreign exchange rates.

Gross profit was \$2.3 million, or gross margin of 2.2% of net revenues, in the second quarter of 2023, compared to a loss of \$6.2 million, or gross margin of -4.2% of net revenues, in the year-ago period. Gross profit and gross margin were positively impacted by lower materials costs, lower inventory reserves and lower logistics costs per pound, partially offset by higher manufacturing costs excluding depreciation, and lower net revenue per pound. Manufacturing costs included the impacts from flow-through of higher cost inventory produced in the fourth quarter of 2022 when production volume was curtailed in response to weak demand, and underutilization fees. Gross profit and gross margin included the impact from a change in the Company's accounting estimate associated with the estimated useful lives of its large manufacturing equipment made in the first quarter of 2023, which reduced COGS depreciation expense by approximately \$5.1 million, or 5.0 percentage points of gross margin, relative to depreciation expense utilizing the Company's previous estimated useful lives.

Loss from operations in the second quarter of 2023 was \$53.8 million compared to \$89.7 million in the year-ago period. The decrease in loss from operations was primarily driven by higher gross profit, reduced non-production headcount expenses primarily as a result of the reduction in force implemented in October 2022, lower legal and consulting fees, decreased production trial expenses, and lower outbound freight costs included in the Company's selling expenses.

Total other income, net, was \$0.8 million in the second quarter of 2023 compared to total other expense, net, of \$6.0 million in the year-ago period. The increase in total other income, net, was primarily due to lower realized and unrealized foreign currency transaction losses and higher net interest income.

Net loss was \$53.5 million in the second quarter of 2023 compared to \$97.1 million in the year-ago period. Net loss per common share was \$0.83 in the second quarter of 2023 compared to \$1.53 in the year-ago period. The reduction in net loss was primarily driven by the reduction in loss from

operations, the increase in total other income, net, and a \$0.9 million decrease in losses related to the Company's joint venture with PepsiCo, Inc., the Planet Partnership, LLC ("TPP").

Adjusted EBITDA was a loss of \$40.8 million, or -40.0% of net revenues in the second quarter of 2023 compared to an Adjusted EBITDA loss of \$68.8 million, or -46.8% of net revenues, in the year-ago period.

#### **Balance Sheet and Cash Flow Highlights**

The Company's cash and cash equivalents balance, including restricted cash, was \$225.9 million and total outstanding debt was \$1.1 billion as of July 1, 2023. Net cash used in operating activities was \$88.3 million in the six months ended July 1, 2023, compared to \$235.7 million in the year-ago period. Capital expenditures totaled \$7.1 million in the six months ended July 1, 2023, compared to \$42.0 million in the year-ago period. Net cash used in investing activities was \$8.1 million in the six months ended July 1, 2023, compared to \$42.0 million in the year-ago period. Net cash used in investing activities in the six months ended July 1, 2023, compared to \$42.0 million in the year-ago period. Net cash used in investing activities in the six months ended July 1, 2023, an illion in investment in TPP that was previously committed, partially offset by \$2.3 million in proceeds from sales of fixed assets.

#### 2023 Outlook

The Company's operating environment continues to be affected by uncertainty related to macroeconomic issues, including softer demand in the plant-based meat category, high inflation, rising interest rates, and ongoing concerns about the likelihood of a recession, among other things, all of which have had and could continue to have unforeseen impacts on the Company's actual realized results. Based on management's best assessment of the environment today, the Company is providing the following updated outlook for the full year 2023:

- Net revenues are expected to be in the range of approximately \$360 million to \$380 million, representing a decrease of approximately 14% to 9% compared to 2022.
- Gross margin, including the positive impact of the Company's change in accounting estimates for the useful lives of its large manufacturing equipment implemented in the first quarter of 2023, is expected to be in the mid to high single-digit range.
- Operating expenses are expected to be \$245 million or less.
- Capital expenditures are expected to be in the range of \$20 million to \$25 million.
- With respect to the Company's previously stated target of achieving cash flow positive operations within the second half of 2023, in light of greater than expected consumer and category headwinds and their anticipated impact on net revenues, the Company now believes this is unlikely to be met in the stated timeframe. Nevertheless, management remains firmly focused on achieving cash flow positive operations, including increased cost containment, and expects meaningfully reduced cash consumption for the balance of the year.

#### **Forward-Looking Statements**

Certain statements in this release constitute "forward-looking statements" within the meaning of the federal securities laws, including statements related to the Company's expectations with respect to its full year 2023 outlook, including among others, anticipated decreases in the Company's cash consumption and increases in gross margin for the remainder of the year. The Company may be unable to realize the contemplated benefits in connection with the cost-reduction initiatives and restructuring of certain operating activities, which may have an adverse impact on the Company's performance, results of operations and financial condition. Additionally, the Company's ability to make progress toward its goal of achieving cash flow positive operations is dependent on a number of assumptions and uncertainties, including, without limitation, demand in the category and for the Company's products; the Company's ability to reduce costs and achieve positive gross margins; the Company's ability to grow revenues and meet operating expense reduction targets, which may be subject to factors beyond the Company's control; and the Company's ability to monetize inventory and manage working capital.

Forward-looking statements are based on management's current opinions, expectations, beliefs, plans, objectives, assumptions and projections regarding financial performance, prospects, future events and future results, including ongoing uncertainty related to macroeconomic issues, including inflation and rising interest rates, demand in the plant-based meat category, ongoing concerns about the likelihood of a recession, increased competition, supply chain disruptions and challenges related to labor availability, among other matters, and involve known and unknown risks that are difficult to predict. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "project," "predict," "outlook," "potential," "continue," "likely," "will," "would" and variations of these terms and similar expressions, or the negative of these terms or similar expressions. These forward-looking statements are only predictions, not historical fact, and involve certain risks and uncertainties, as well as assumptions. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which or whether, such performance or results will be achieved. Actual results, levels of activity, performance, achievements and events could differ materially from those stated, anticipated or implied by such forward-looking statements. While Beyond Meat believes that its assumptions are reasonable, it is very difficult to predict the impact of known factors, and, of course, it is impossible to anticipate all factors that could affect actual results. There are many risks and uncertainties that could cause actual results to differ materially from forward-looking statements made herein including, but not limited to, the impact of inflation and rising interest rates across the economy, including higher food, grocery, raw materials, transportation, energy, labor and fuel costs; decreased demand, and the underlying factors negatively impacting demand, in the plant-based meat category; the impact of adverse and uncertain economic and political conditions in the U.S. and international markets, including concerns about the likelihood of an economic recession, downturn or periods of rising or high inflation; reduced consumer confidence and changes in consumer spending, including spending to purchase our products, and negative trends in consumer purchasing patterns due to levels of consumers' disposable income, credit availability and debt levels, and economic conditions, including due to recessionary and inflationary pressures; our ability to accurately predict consumer taste preferences, trends and demand and successfully innovate, introduce and commercialize new products and improve existing products, including in new geographic markets; the effects of competitive activity from our market competitors and new market entrants; disruption to, and the impact of uncertainty in, our domestic and international supply chain, including labor shortages and disruption, shipping delays and disruption, and the impact of cyber incidents at suppliers and vendors; risks and uncertainties related to certain cost-reduction initiatives, workforce reductions, executive leadership changes, and the timing and success of achieving certain financial goals or cash flow positive targets; our ability to streamline operations and improve cost efficiencies, which could result in the contraction of our business and the implementation of significant cost cutting measures such as downsizing and exiting certain operations, domestically and/or abroad; the impact of uncertainty as a result of doing business in China and Europe; the volatility of or inability to access the capital markets, including due to macroeconomic factors, geopolitical tensions or the outbreak of hostilities or war; changes in the retail landscape, including our ability to maintain and expand our distribution footprint, the timing and level of trade and promotion discounts, our ability to maintain and grow market share and increase household penetration, repeat purchases, buying rates (amount spent per buyer) and purchase frequency, and our ability to maintain and increase sales velocity of our products; changes in the foodservice landscape, including the timing and level of marketing and other financial incentives to assist in the promotion of our products, our ability to maintain and grow market share and attract and retain new foodservice customers or retain existing foodservice customers, and our ability to introduce and sustain offering of our products on menus; the timing and success of distribution expansion and new product introductions in increasing revenues and market share; the timing and success of strategic Quick Service Restaurant partnership launches and limited time offerings resulting in permanent menu items; foreign exchange rate fluctuations; our ability to identify and execute cost-down initiatives intended to achieve price parity with animal protein; the effectiveness of our business systems and processes; our estimates of the size of our market opportunities and ability to accurately forecast market growth; our ability to effectively expand or optimize our manufacturing and production capacity, including effectively managing capacity for specific products with shifts in demand; risks associated with underutilization of capacity which could give rise to increased costs per unit, underutilization fees and termination fees to exit certain supply chain arrangements and/or the write-off of certain equipment; our inability to sell our inventory in a timely manner requiring us to sell our products through liquidation channels at lower prices, write-down or write-off obsolete inventory, or increase inventory reserves; our ability to accurately forecast our future results of operations and financial goals or targets, including fluctuations in demand for our products and in the plant-based meat category generally and increased competition; our ability to accurately forecast demand for our products and manage our inventory, including the impact of customer orders ahead of holidays and shelf reset activities, customer and distributor changes and buying patterns, such as reductions in targeted inventory levels, and supply chain and labor disruptions, including due to the impact of cyber incidents at suppliers and vendors; our operational effectiveness and ability to fulfill orders in full and on time; variations in product selling prices and costs, and the mix of products sold; our ability to successfully enter new geographic markets, manage our international expansion and comply with any applicable laws and regulations, including risks associated with doing business in foreign countries, substantial investments in our manufacturing operations in China and the Netherlands, and our ability to comply with the U.S. Foreign Corrupt Practices Act or other anti-corruption laws; the effects of global outbreaks of pandemics (such as the COVID-19 pandemic), epidemics or other public health crises, or fear of such crises; the success of our marketing initiatives and the ability to maintain and grow our brand awareness, maintain, protect and enhance our brand, attract and retain new customers and maintain and grow our market share, particularly while we are seeking to reduce our operating expenses; our ability to attract, maintain and effectively expand our relationships with key strategic foodservice partners; our ability to attract and retain our suppliers, distributors, co-manufacturers and customers; our ability to procure sufficient high-quality raw materials at competitive prices to manufacture our products; the availability of pea and other proteins that meet our standards; our ability to diversify the protein sources used for our products; our ability to differentiate and continuously create innovative products, respond to competitive innovation and achieve speed-to-market; our ability to successfully execute our strategic initiatives; the volatility associated with ingredient, packaging, transportation and other input costs; real or perceived quality or health issues with our products or other issues that adversely affect our brand and reputation; our ability to keep pace with technological changes impacting the development of our products and implementation of our business needs; significant disruption in, or breach in security of our or our suppliers' or vendors' information technology systems, and resultant interruptions in service and any related impact on our reputation, including data privacy, and any potential impact on our supply chain, including on customer demand, order fulfillment and lost sales, and the resulting timing and/or amount of net revenues recognized; the ability of our transportation providers to ship and deliver our products in a timely and cost effective manner; senior management and key personnel changes, the attraction, training and retention of qualified employees and key personnel and our ability to maintain our company culture; the effects of

organizational changes including reductions-in-force and realignment of reporting structures; the success of operations conducted by joint ventures where we share ownership and management of a company with one or more parties who may not have the same goals, strategies or priorities as we do and where we do not receive all of the financial benefit; the timing, impact and success of restructuring certain contracts and operating activities related to Beyond Meat Jerky and our assumption of distribution responsibilities for Beyond Meat Jerky; risks related to use of a professional employer organization to administer human resources, payroll and employee benefits functions for certain of our international employees, and use of certain third party service providers for the performance of several business operations including payroll and human capital management services; the impact of potential workplace hazards; the effects of natural or man-made catastrophic or severe weather events, including events brought on by climate change, particularly involving our or any of our co-manufacturers' manufacturing facilities, our suppliers' facilities, or any other vital aspects of our supply chain; the impact of marketing campaigns aimed at generating negative publicity regarding our products, brand and the plant-based meat category, including regarding the nutritional value of our products; the effectiveness of our internal controls; accounting estimates based on judgment and assumptions that may differ from actual results; the requirements of being a public company and effects of increased administrative costs related to compliance and reporting obligations; the sufficiency of our cash and cash equivalents to meet our liquidity needs, including risks associated with adverse developments affecting the financial services industry; our significant indebtedness and ability to repay such indebtedness; risks related to our debt, including limitations on our cash flow from operations and our ability to satisfy our obligations under the convertible senior notes; our ability to raise the funds necessary to repurchase the convertible senior notes for cash, under certain circumstances, or to pay any cash amounts due upon conversion; provisions in the indenture governing the convertible senior notes delaying or preventing an otherwise beneficial takeover of us; and any adverse impact on our reported financial condition and results from the accounting methods for the convertible senior notes; estimates of our expenses, future revenues, capital expenditures, capital requirements and our needs for additional financing; our ability to meet our obligations under our El Segundo Campus and Innovation Center lease, the timing of occupancy and completion of the build-out of our space, cost overruns, delays, workforce reductions or other cost-reduction initiatives on our space demands; our ability to meet our obligations under leases for our corporate offices, manufacturing facilities and warehouses, or risks related to excess space capacity under our leases due to workforce reductions or other cost-reduction initiatives; changes in laws and government regulation affecting our business, including the U.S. Food and Drug Administration and the U.S. Federal Trade Commission governmental regulation, and state, local and foreign regulation; new or pending legislation, or changes in laws, regulations or policies of governmental agencies or regulators, both in the U.S. and abroad, affecting plant-based meat, the labeling or naming of our products, or our brand name or logo; the failure of acquisitions and other investments to be efficiently integrated and produce the results we anticipate; risks inherent in investment in real estate; the financial condition of, and our relationships with our suppliers, co-manufacturers, distributors, retailers, and foodservice customers, and their future decisions regarding their relationships with us; our ability and the ability of our suppliers and co-manufacturers to comply with food safety, environmental or other laws or regulations; seasonality, including increased levels of purchasing by customers ahead of holidays, customer shelf reset activity and the timing of product restocking by our retail customers; economic conditions and the impact on consumer spending; the impact of increased scrutiny from a variety of stakeholders, institutional investors and governmental bodies on environmental, social and governance ("ESG") practices, including expanding mandatory and voluntary reporting, diligence and disclosure on ESG matters; the outcomes of legal or administrative proceedings, or new legal or administrative proceedings filed against us; our, our suppliers' and our co-manufacturers' ability to protect our proprietary technology, intellectual property and trade secrets adequately; the impact of tariffs and trade wars; the impact of changes in tax laws; and the risks discussed under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 filed with the SEC on March 1, 2023, the Company's Quarterly Report on Form 10-Q for the fiscal guarter ended April 1, 2023 filed with the SEC on May 10, 2023, and the Company's Quarterly Report on Form 10-Q for the fiscal quarter ended July 1, 2023 to be filed with the SEC, as well as other factors described from time to time in the Company's filings with the SEC. ### **Non-GAAP Financial Measures**

Beyond Meat uses the non-GAAP financial measures set forth below in assessing its operating performance and in its financial communications. Management believes these non-GAAP financial measures provide useful additional information to investors about current trends in the Company's operations and are useful for period-over-period comparisons of operations. In addition, management uses these non-GAAP financial measures to assess operating performance and for business planning purposes. Management also believes these measures are widely used by investors, securities analysts, rating agencies and other parties in evaluating companies in our industry as a measure of our operational performance. These non-GAAP financial measures should not be considered in isolation or as substitutes for the comparable GAAP measures. In addition, these non-GAAP financial measures may not be computed in the same manner as similarly titled measures used by other companies.

"Adjusted EBITDA" is defined as net loss adjusted to exclude, when applicable, income tax expense, interest expense, depreciation and amortization expense, restructuring expenses, share-based compensation expense, and Other, net, including interest income, and foreign currency transaction gains and losses.

"Adjusted EBITDA as a % of net revenues" is defined as Adjusted EBITDA divided by net revenues.

There are a number of limitations related to the use of Adjusted EBITDA and Adjusted EBITDA as a % of net revenues rather than their most directly comparable GAAP measures. Some of these limitations are:

- Adjusted EBITDA excludes depreciation and amortization expense and, although these are non-cash expenses, the assets being depreciated may have to be replaced in the future increasing our cash requirements;
- Adjusted EBITDA does not reflect interest expense, or the cash required to service our debt, which reduces cash available to us;
- Adjusted EBITDA does not reflect income tax payments that reduce cash available to us;
- Adjusted EBITDA does not reflect restructuring expenses that reduce cash available to us;
- Adjusted EBITDA does not reflect share-based compensation expense and therefore does not include all of our compensation costs;
- Adjusted EBITDA does not reflect Other, net, including interest income and foreign currency transaction gains and losses, that may increase or decrease cash available to us; and
- other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

The following table presents the reconciliation of Adjusted EBITDA to its most comparable GAAP measure, net loss, as reported (unaudited):

<sup>(1)</sup> Primarily comprised of legal and other expenses associated with the dispute with a co-manufacturer with whom an exclusive supply agreement was terminated in May 2017. On October 18, 2022, the parties to this dispute entered into a confidential written settlement agreement and mutual release, related to this matter. In the three and six months ended July 1, 2023, we recorded a credit of \$(0.2) million and \$(0.6) million, respectively, in restructuring expenses, primarily driven by a reversal of certain accruals.

<sup>(2)</sup> Includes \$(1.0) million and \$(0.7) million in net foreign currency transaction losses in the three and six months ended July 1, 2023, respectively. Includes \$(5.5) million and \$(6.6) million in net foreign currency transaction losses in the three and six months ended July 2, 2022, respectively.

<sup>(3)</sup> Includes \$2.9 million and \$5.7 million in interest income in the three and six months ended July 1, 2023, respectively. Includes \$0.6 million and \$0.7 million in interest income in the three and six months ended July 2, 2022, respectively.
